

## Good Happens When You Give

### The Holtkamp Story

Matthew & Suzanne Holtkamp, owners of Holtkamp Heating & Air, have always believed that they can serve the community in more ways than making sure your homes and businesses are comfortable throughout the year. They understand that building a better community is more than just building a good business and providing jobs. There are other needs that can be fulfilled to make the community greater.

As a family, the Holtkamps decided to make philanthropy their conduit to serve the needs of their community. This decision led them to partner with the Community Foundation for Northeast Georgia and from there to set up the Holtkamp Family Foundation as a Donor-Advised Fund to fulfill their goals of giving back to their community in a meaningful and intentional way. Read more about the Holtkamp's story to learn why they decided the Community Foundation was the right partner for them and how Donor-Advised Funds helped them achieve their giving goals:

# Donor-Advised Funds

## Donor-Advised Funds yield a Powerful Return

Donor-Advised Funds offer an immediate return for a long-term giving plan. These funds work well for donors who need to give charitably for tax purposes now, but don't have a significant cause to fund at the time. We'll hold and grow your funds at the Community Foundation until you are ready to grant them back out to the causes that matter most to you. We can even help you identify organizations and needs that match your charitable intent. This is a simple way to be more intentional with your charitable giving and ensure it has the greatest impact.

*Consult your financial advisor about tax benefits. Investment returns not guaranteed. Community Foundation funds can only be distributed to registered 501(c)3 organizations.*

Get your year-end **tax benefits** & be more **impactful** with your **giving** while helping build a better **community** for **generations to come**.

The Community Foundation has been focused for more than 30 years on connecting people who care with causes that matter. We help everyday people become community philanthropists whose charitable giving has real impact in the lives of real people right here in our community. Since 1985 the Community Foundation has granted out over \$70 million. In partnership with our donors, we help mold the landscape of our community and quality of life for us all, now and for generations to come.

**Connecting people who care with causes that matter!**
